Re: WC Docket No. 14-93

CAF Challenge List – Blue Ridge (ED-01.FID1067593)

FRN0003219227

The following, including attachments, is Blue Ridge Cable Technologies, Inc.'s, dba Blue Ridge Communications (Blue Ridge) response to CenturyLink and Windstream's allegation that certain Census Blocks are "unserved" by Blue Ridge.

Blue Ridge provides broadband service in the areas, among others, identified in attachments below.

Attachment #1 – This is the FCC 505 Challenge form that challenges whether Blue Ridge provides internet and phone service to specific blocks by CenturyLink and Windstream. We have listed the attachments in column "J" (Type of Supporting Evidence) that supports our position that in these areas we meet and exceed the FCC Broadband Requirements and they are not underserved.

Attachment #2 - This is the FCC 505 file with our customers listed within each tract and block and have noted if the customer has internet and/or phone. We have listed over 6000 customers in the Blocks being challenged.

Attachment #3 – These are engineering maps with our cable plant over laid on the tract and block map showing where our plant exist within each block for the Century Link challenges.

Attachment #4 - These are copies of customer's redacted monthly bills from the Census Blocks in question to whether we provide service to those blocks. We have selected one customer bill per Block as additional proof that we provide Broadband services in the challenged areas.

Attachment #5 - This is our pricing for internet packages and phone service. We offer internet packages up to 50Mbps download speeds and 5Mbps upload speeds. All our packages have a 250GB monthly allowance except our lowest level of internet service Web Server which has a 150GB monthly allowance. However, this usage is only measured during peak usage time which is between 5pm and 1am, between the hours of 1am–5pm there is no usage limit.

Attachment #6 – These are examples of Blue Ridge Communication phone customers that were previously with other providers in the challenged areas and ported their phone number to our company. We have listed 100 accounts which Windstream makes up the majority of the list. Out of the 100 accounts on the list, 83 were Windstream customers.

Attachment #7 - Contains our advertising information. Any file with Ephrata in the title refers to FIPS codes 42071xxxxxxxxx, 42099xxxxxxxxx and 42011xxxxxxxxx. Any files with Carbon County in the title refer to 42025xxxxxxxxx and 42107xxxxxxxxx.

I, Jeff Crandall, Director of Operations, Blue Ridge technologies, Inc. certify under the penalty of perjury that the foregoing and supporting information are true and correct to the best of my knowledge and belief.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Jeff Crandall', with a stylized, flowing script.

Jeff Crandall

Dir. Of Operations
